

DISTRIBUTION CONVEYOR SYSTEM

ACCURATELY & CONSISTENTLY FEED
MULTIPLE DISCHARGE POINTS

The Distribution Conveyor System allows processors to increase production and efficiency by feeding multiple processes from one system. Its vibratory conveyor moves product to feed each discharge point, with optional pneumatic gates ensuring standard flow to each with no starvation. Its stainless steel construction and solid pans allow for quick, yet thorough cleaning.

- Accumulate bulk product, then control flow to each downstream point
- Vibratory conveyors and scale feeders ensure accurate, consistent flow
- Configure the discharge points precisely to your application
- Precise controls ensure accurate weights and provide instant start/stop
- Food-grade sanitary design with stainless steel construction
