FORKLIFT FORKLIFT DUMPER Automatic & safe elevated tote and crate unloading

The Forklift Dumper unloads bulk product containers quickly, improving the production and efficiency of your food processing line without compromising safety or traffic. Continuous unloading minimizes product damage while keeping production running. Various configurations, safety factors, load heights, and options ensure the Forklift Dumper can be seamlessly added to your process or integrated into your line.

- Single stage with 60-degree discharge angle
- Handle up to 1,800 pounds totes on standard model or 3,000 on the 5:1 safety factor design
- Optional positive seal system lifts and seals the box before tilt – eliminating the possibility of debris
- Sanitary open-frame, tubular design with RTE level available

COMMON FOOD APPLICATIONS

FORKLIFT DUMPER
