

MIX-BLEND SYSTEM

ACCURATE BLEND RECIPES
FOR QUALITY PRODUCTS

The Mix-Blend System receives and feeds bulk products together, blending them into quality mixes. We offer models specific to dry applications – cereal, trail mix, and mixed nuts – and frozen fruit and vegetable blends.

Regardless of your application, the Mix-Blend System offers recipe-driven controls, modular design with a range of dumper, hopper, feeder, and conveyor features, and a catalog of options.

- Feed separate products into one mixed flow for a wide range of food products
- Modular design with the number of stations you need
- Recipes stay consistent with variable speed adjustments
- Food-grade sanitary design with stainless steel construction
